**Subject:** Protect Portland's industrial jobs

I lead Best Practices all over the country, and no city has received the scrutiny and delay that Portland has. Other places have not had to adhere to standards for their clean-up to the level we have been required to, as those places balanced environment with local job opportunity for its citizens.

Let's get on with this with a reasonable balance, and not be so extremist in our approach.

Sincerely,

(b) (6)
